RESCUE TRAINING
Technical Training Solutions L.L.C.

Accreditation:

The Pro Board accredits fire service training agencies that use the National Fire Protection Association's (NFPA's) professional qualification standards.

Certification:

An agency that is accredited by the Pro Board makes national certification available to its members. Members are then eligible to be placed on the Pro Board's national register and receive a Certificate of National Certification. In addition, the Pro Board encourages reciprocity among certifying agencies.

Emergency Services Teams

Our instructors are professional and retired firefighters with decades of rescue experience on technical rescue teams.

We have extensive knowledge of confined space rescue, rope rescue, trench rescue, vehicle rescue and structural collapse rescue.

Industrial Rescue Teams

Industrial rescue teams are trained to handle nearly any plant or field rescue emergency. Our industrial rescue courses are designed specifically for industry and meet or exceed the standards of the United States Occupational Safety and Health Administration.

Skippyboard

*" I just wanted to express my admiration for the TTS Instructors. I cannot say enough about your organization and it's people. Their rescue experience, knowledge and proper application of tools and equipment is remarkable. I would recommend TTS Rescue training to any rescue professional. Thanks again!"
Bob McFadries, Skippyboard"*

Accreditation and Partnerships

Pro Board Accreditation - Our program has partnered with Great Oaks Institute of Technology and Career Development in Cincinnati Ohio. This partnership means that our courses are accredited by the National Board on Fire Service Professional Qualifications (Pro Board)
